Abbildung 20 Romanen, Räter

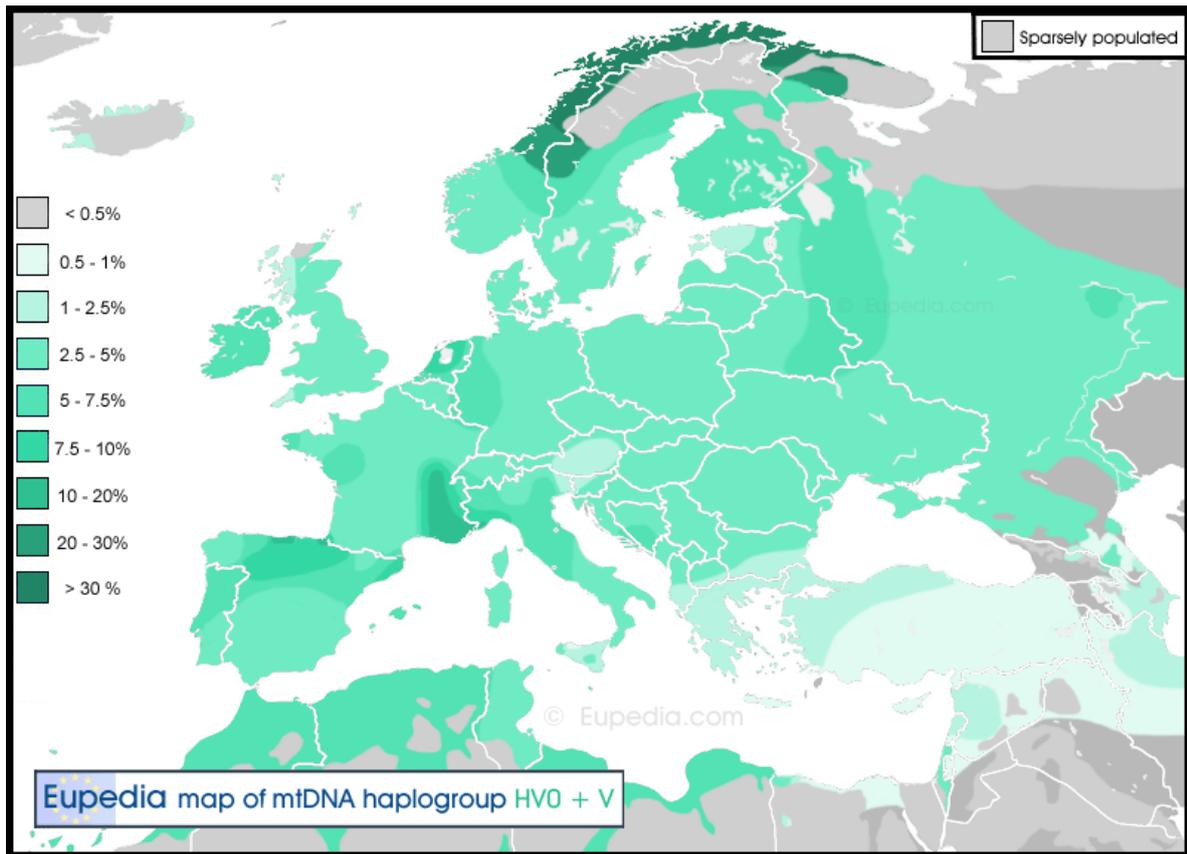

Abbildung 21 Samen

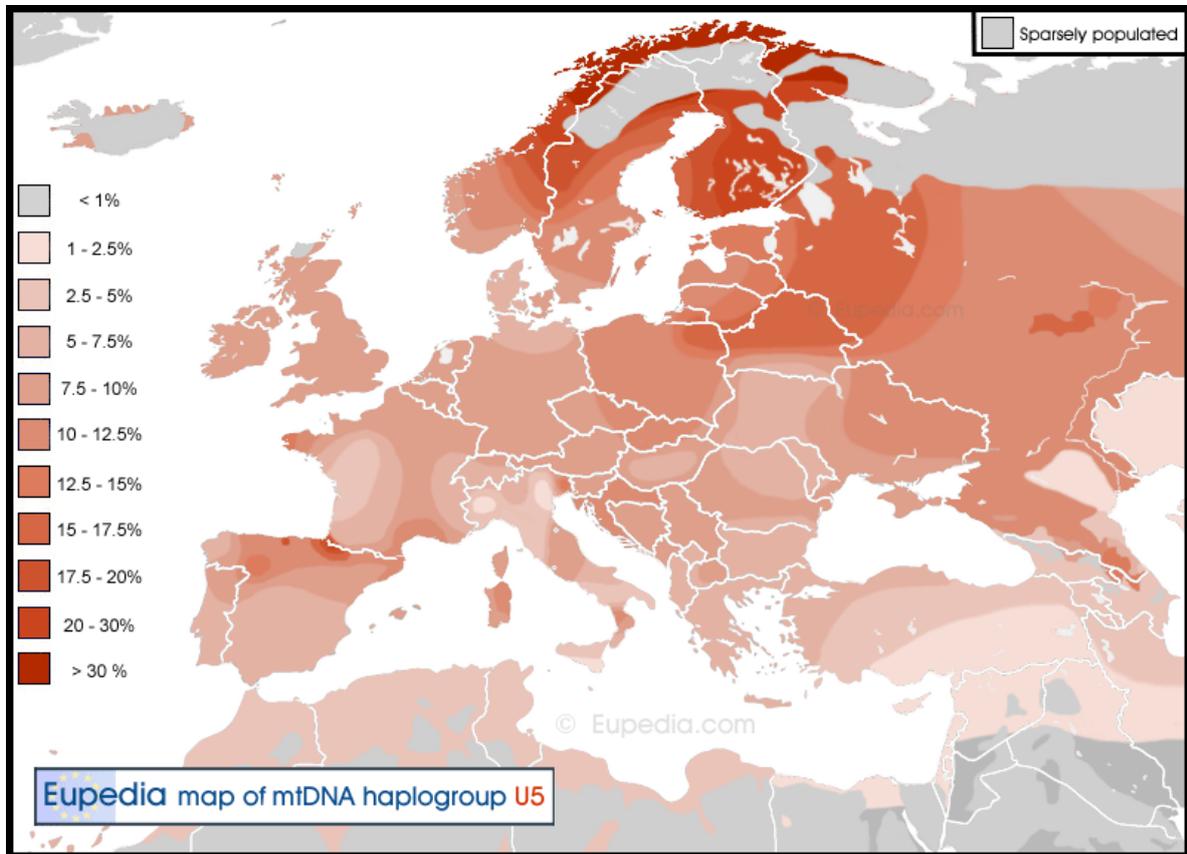

Abbildung 22 Finno-Ugrier

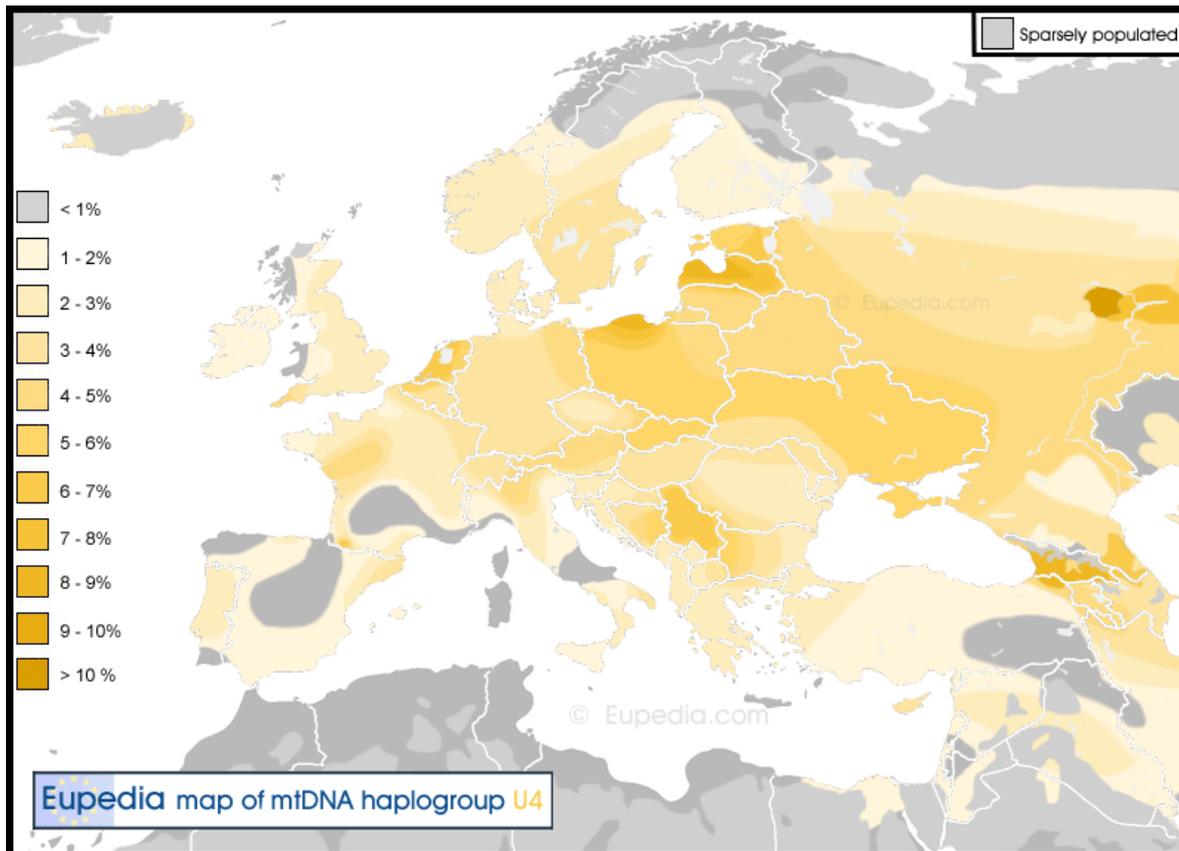

Abbildung 23 Balten

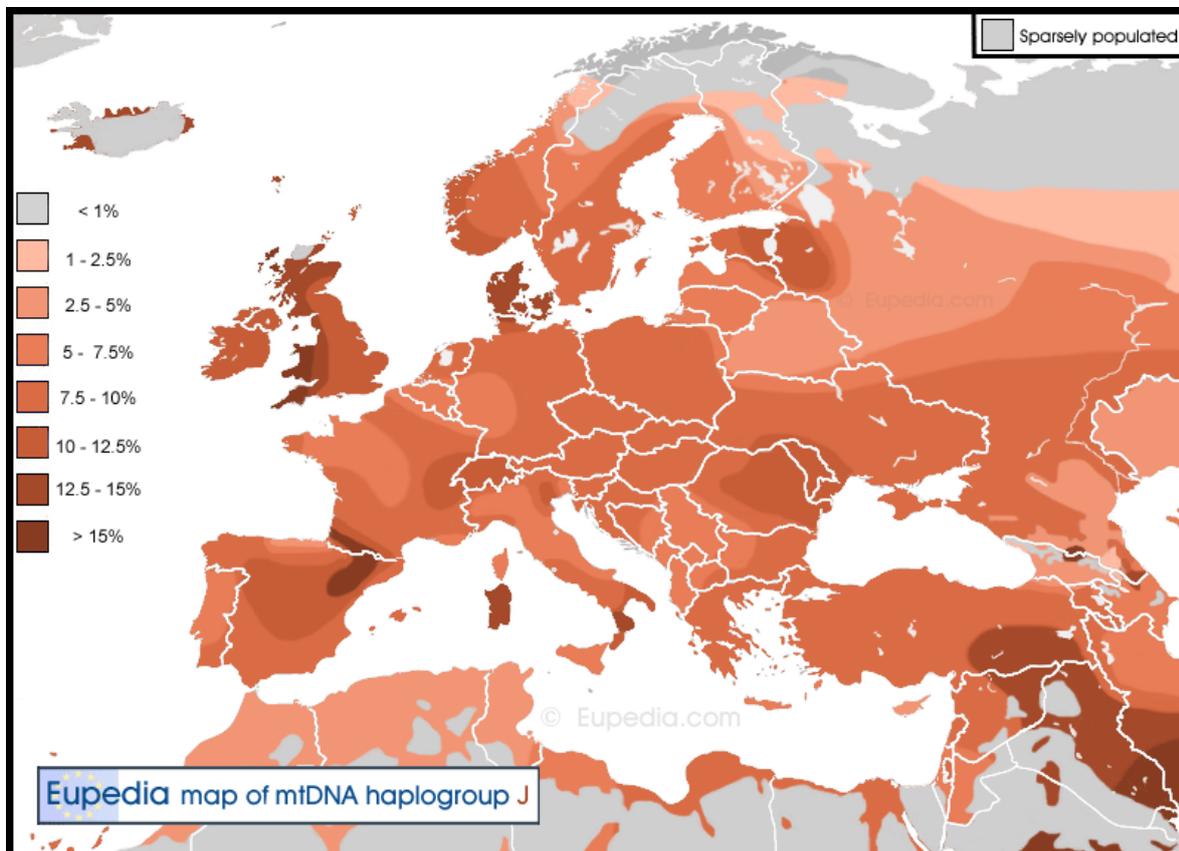

Abbildung 24 Sumerer

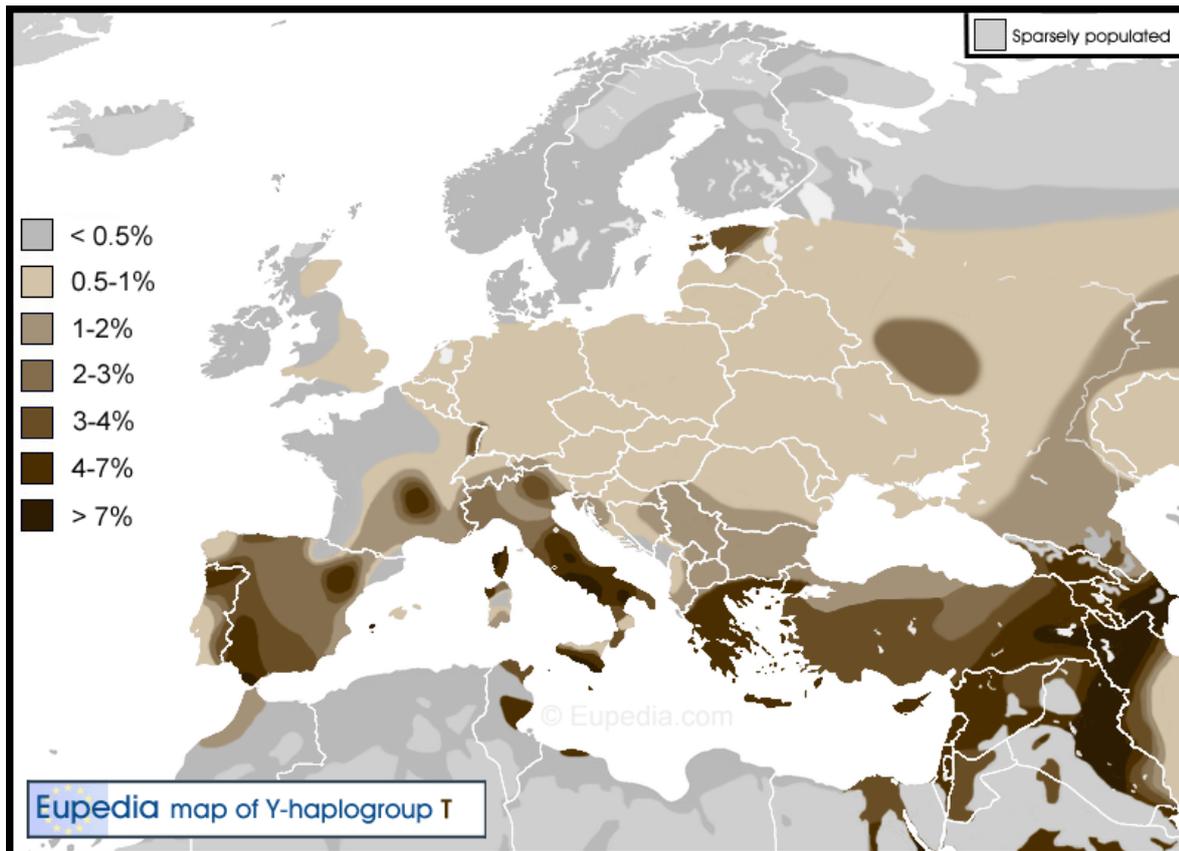

Abbildung 25 Kurden

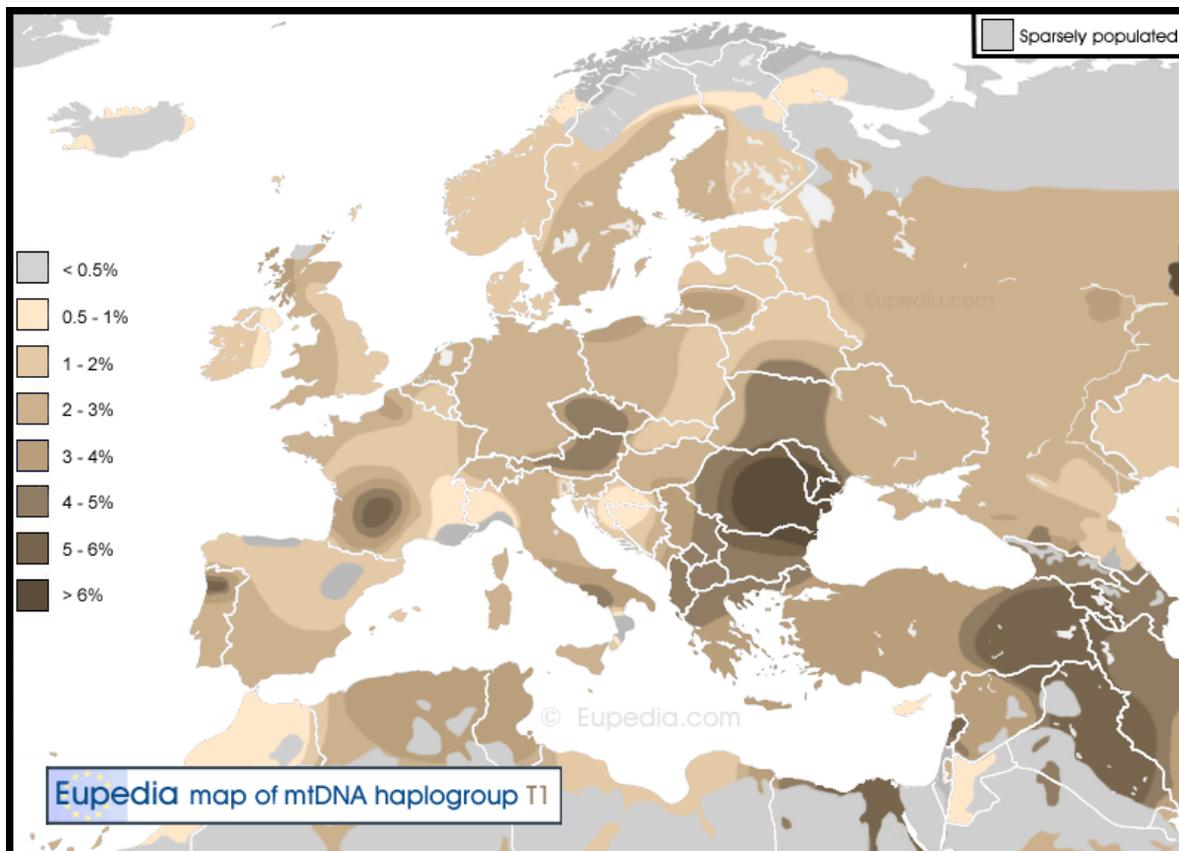

Abbildung 26 Thraker, Daker, Geten

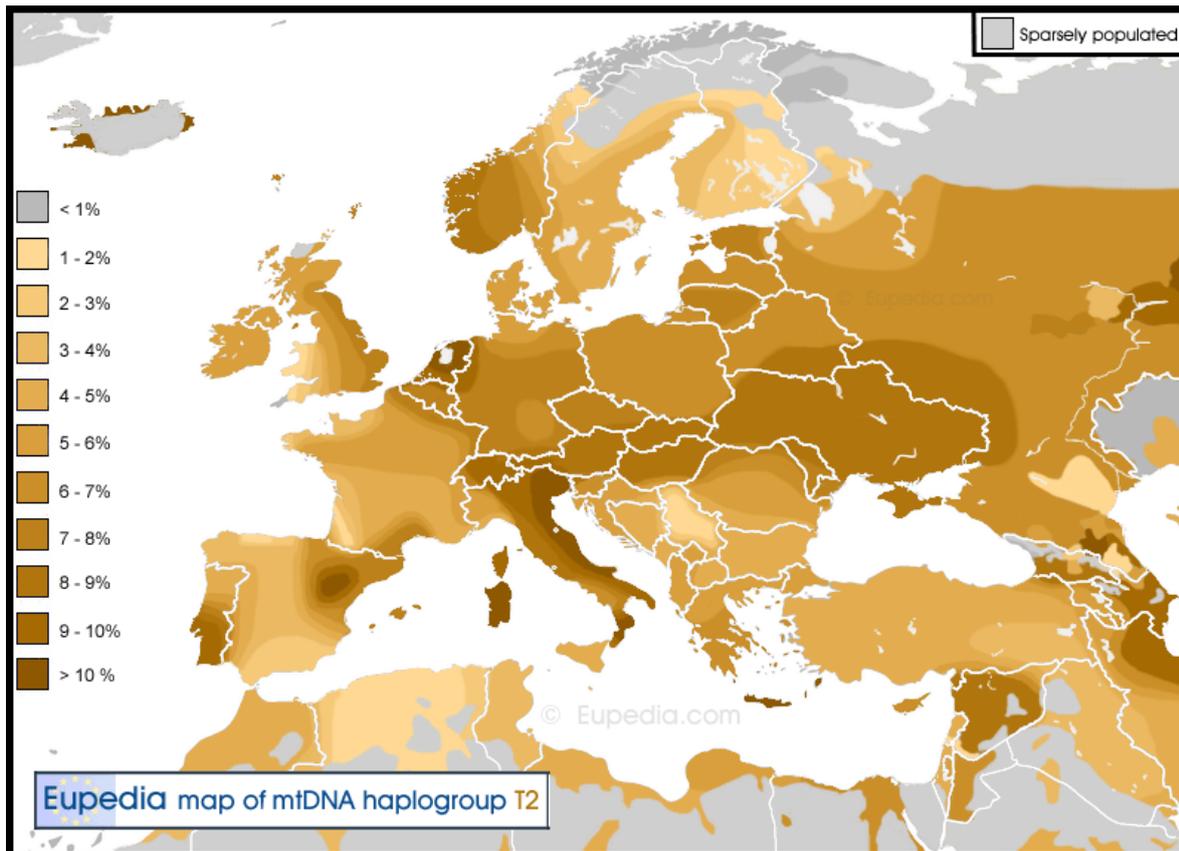

Abbildung 27 Sarden, Samniten, Umlrer, Osker

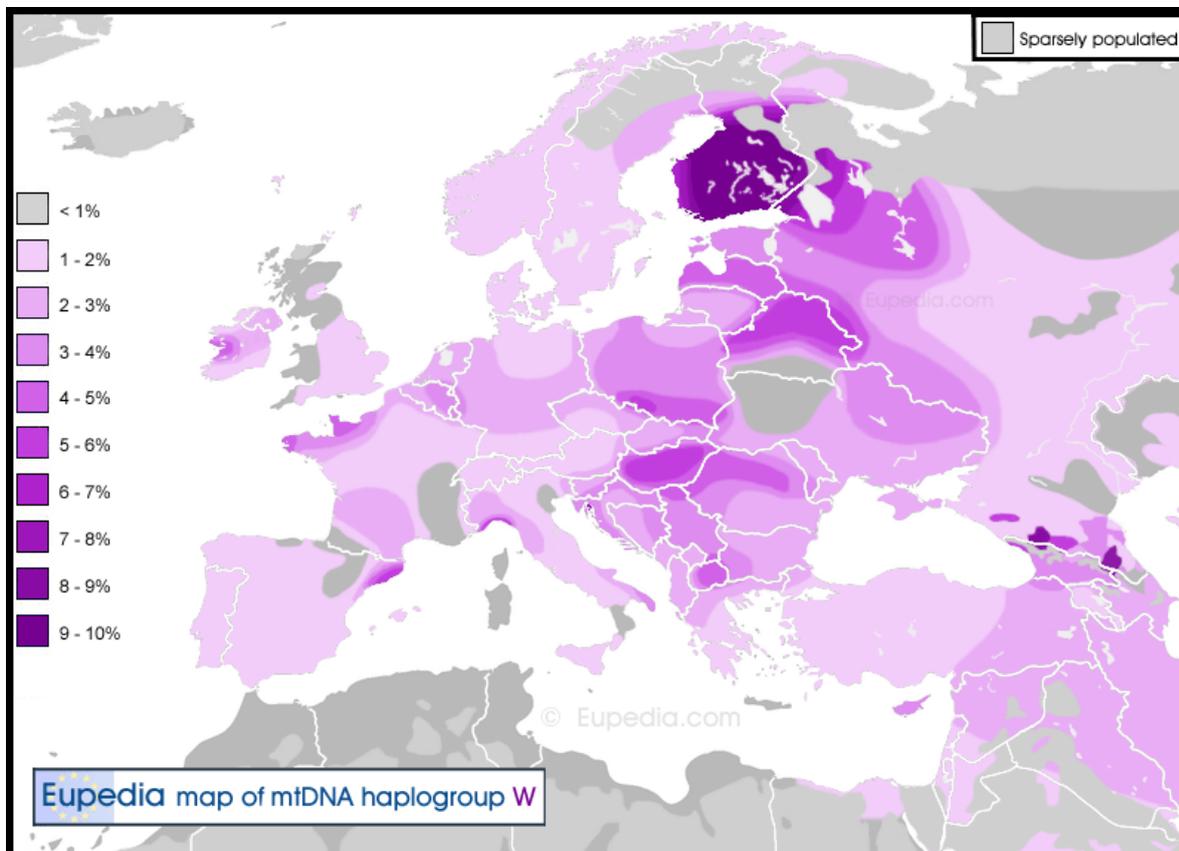

Abbildung 28 Finno-Ugrier, Finnen, Ungarn

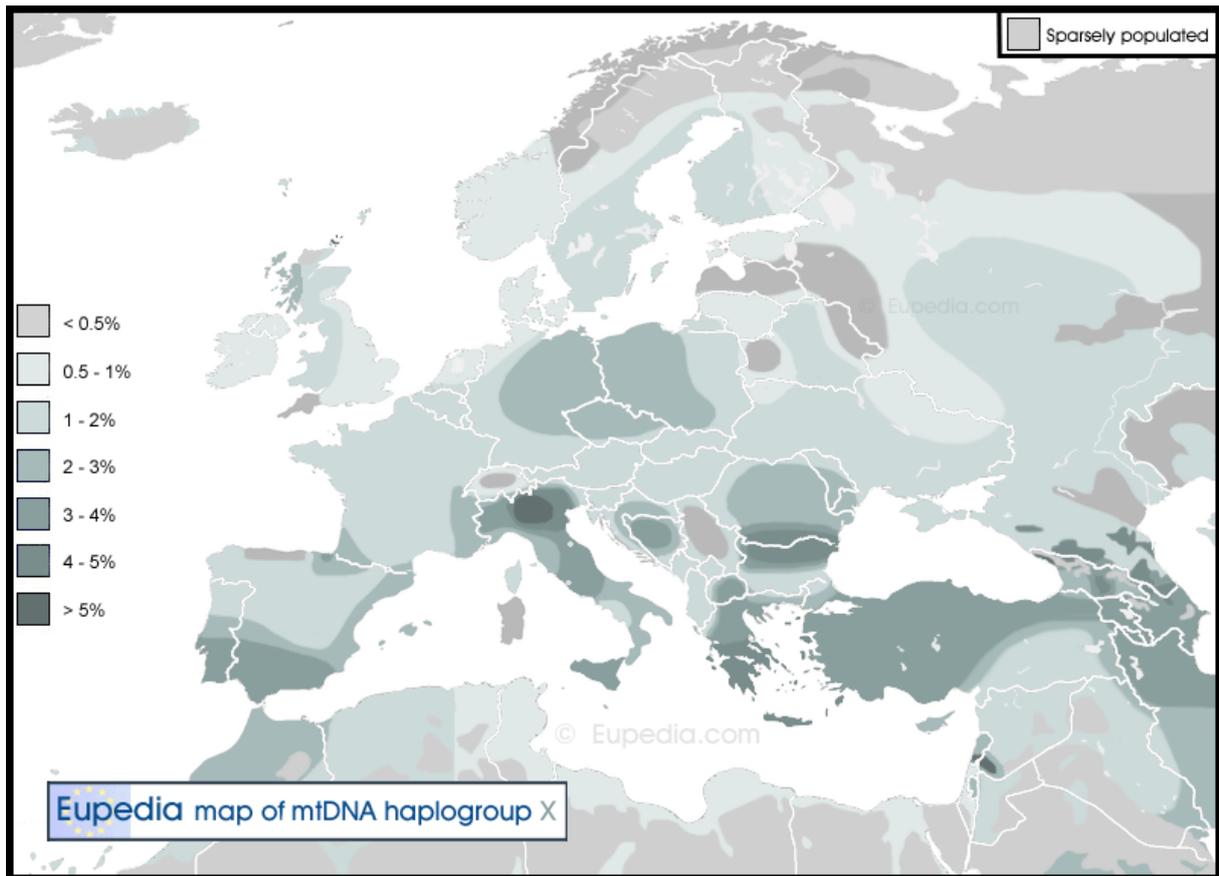

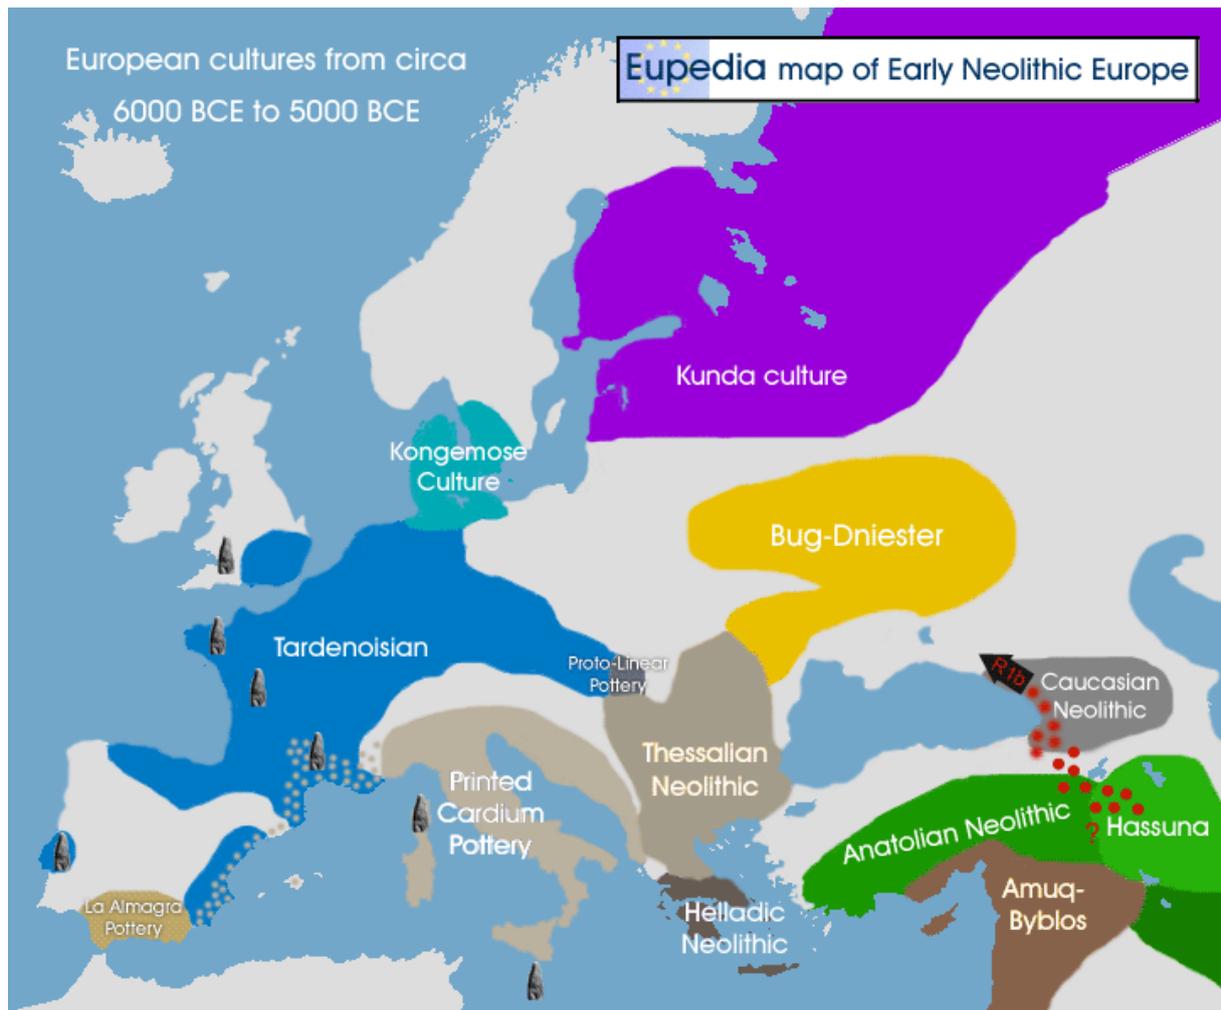

Abbildung 29 Anatolier

Suggested associations of early Neolithic cultures with Y-DNA haplogroups

- |  |   |
|--|---|
| Kongemose culture : Pre-I1, I1                       | Comb Ceramic Pottery : N1c1                     |
| Tardenoisian culture: I, I2, I2b                     | Bud-Dniester culture : R1a1a, (I2)              |
| Printed Cardium Pottery : G2a, I2a, E-V13, (J1), (T) | Caucasian Neolithic : G2a, R1b1b, (I)           |
| Thessalian Neolithic : G2a, I2a, (J1), (T)           | Anatolian Neolithic: G2a, J1, J2, R1b1b, T, (I) |
| Helladic Greece : E-V13, G2a, I2, I2a, (J1), (T)     | Hassuna : G, J1, J2, R1b1b, T                   |
| La Almagra Pottery : E-M78, E-M81, G2a               | Amuq-Byblos: G, E-M78, T, R1b1, (I)             |

Minor or less likely haplogroups are in brackets
